

## WISCONSIN WOMAN'S FORTUNE

Freed From Pain, Weakness,  
Terrible Backache and De-  
spair by Lydia E. Pink-  
ham's Compound.

Coloma, Wis.—"For three years I was troubled with female weakness, irregularities, backache and bearing down pains. I saw an advertisement of Lydia E. Pinkham's Vegetable Compound and decided to try it. After taking several bottles I found it was helping me, and I must say that I am perfectly well now and cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. JOHN WENTLAND, R.F.D., No. 3, Box 60, Coloma, Wis.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

There are probably hundreds of thousands, perhaps millions of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over 30 years ago by a woman to relieve women's suffering. If you are sick and need such a medicine, why don't you try it?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## U. S. Marines Will Wear Pajamas Now; Skeleton In Military Wardrobe Is No More

### No Longer Will Have to Sleep in What They Wear in the Daytime

The United States marine is a nat-  
ty chap. In fact, when in flaring  
khaki trousers or in neat blue serge  
he has promenade down the street; he  
has been modestly conscious of the  
caressing glances of fair femininity  
that beheld him. Though his cos-  
tumes are limited in number, he man-  
ages to extract a marvellous variety  
of attractiveness out of them. For  
sheer ingenuity, whether in parting  
his hair in changing localities, whether  
in shining his boots in varying de-  
grees of brilliance, whether in rais-  
ing his trousers a bit or in lowering  
his jacket a little in order to display  
the attractiveness that is his, Mr.  
Bean Brummel of Bath, England, may  
be characterized as a mere neophyte  
in the sartorial art and things thereto  
appertaining.

### SUGARS AFFECTED BY TARIFF BILL

(By Raymond S. Harris, in San  
Francisco Call, July 30.)  
Adoption of the Bristow sugar tariff  
bill by the United States senate Satur-  
day depressed the price of the big  
sugar companies' stock on the New  
York exchange yesterday, and advanced  
the price of the Hawaiian compa-  
nies listed locally. Hutchinson Sugar  
Plantation sold at \$22, Hawaiian Com-  
mercial and Sugar at \$44.25 and Ono-  
mea at \$55. Pasubau was \$23.75 bid,  
with none offered.

It is believed by those here close in  
touch with the national capital that  
the house will accept the bill, and  
that President Taft will sign it.

Advices from the east over the pri-  
vate brokerage wires are that there  
were few sales of sugar stocks on the  
New York exchange, and comparatively  
no effort was made to support the  
stocks.

The tariff reduction is hailed with  
delight here for three reasons. First,  
it is so small that the companies dis-

light of day via Washington. The  
dread problem that has confronted the  
marine is solved; orders from the cap-  
ital make it public. And that, of  
course, is unjust and rather tactless.  
As a matter of fact, the problem  
would never have arisen had it not  
been for the jealousy of the regular  
seamen who had looked with envious  
eye upon the artistic supremacy of his  
marine brother.

It happened not very long ago. Jack  
Tar bunched with Monsieur Marine on  
one of the battleships. Surreptitious-  
ly the former examined the crease in  
the latter's trousers and the cut of  
his coat—examined and meditated in  
silence. Then he turned about to  
watch him climb into his hammock.  
His mouth opened wide, his eyes fair-  
ly popped.

"Whoops," cried he. "You're a fine  
skate, you are! Posin' as the Harry  
Lehr of the army and navy! You're  
a bristlin', dink-danged, shameless  
bluff, that's what ye are! Wearin'  
fine duds in the day, thinkin' you're  
the only pebble on the beach, tryin' to  
shame us! Why don't ye try to be a  
man and dress for yerself and your  
own self respect instid of fur them  
that looks at ye, and ye happen to get  
in from of 'em. Look at yerself, will  
ye?"

Secondly, actual lowering of  
the sugar tariff makes it certain that  
congress will not take it up again for  
perhaps many years. There are many  
other items on the schedule to take  
up now.

But the boggy of free sugar, it is felt  
is gone, and the passage of this bill  
in the senate, after the house had  
passed the free sugar measure, comes  
as a great relief to the companies.

The reduction is about \$3 on raw  
sugar and twice that much on refined.  
Computing the country's annual con-  
sumption of sugar at 4,000,000 tons, it  
will be possible to show the consum-  
er a gain of well over \$20,000,000 a  
year as a result of the lower tariff. Of  
course, a natural readjustment will  
follow the enactment of the new tariff  
law.

Loss in tariff revenue to the  
government will amount to about \$5,  
000,000.

**NEW ARMY SABRE.**  
The Army and Navy Journal says  
a new sabre, which is regarded by ex-  
pert swordsmen as the most perfect  
sidearm for officers and mounted

ye? My, Jehosaphat, goin' to bunk  
in his!"

Monsieur Marine tumbled from his  
hammock and smothered the sacrile-  
gious word before it had left Jack  
Tar's lips. He retired victorious,  
but the taunt remained to canker. It  
set him thinking, and it set the offi-  
cials of the Government thinking, too.  
How could the marine maintain his  
supremacy, how be quite as beautiful  
when he was wrapped in sweet re-  
pose.

The energy expended in deciding  
the question was enough to run sev-  
eral battleships. Suffice it to say that  
it is decided. A flock of pajamas is  
to descend upon the marines; pa-  
jamas, not pink or befrilled with rib-  
bons, but real, masculine and imma-  
culate white pajamas; pajamas that  
will save the reputation of the corps.  
It will take about 30,000 suits to  
furnish each man of the Marine Corps  
with two pairs, and 10,000 are now  
awaiting distribution in Philadelphia.  
The remainder are being finished as  
quickly as possible. This change in-  
volves no loss in material discarded;  
on the other hand, it is expected that  
the marines, through diminution of  
wear and tear, will have a bit more  
money to expend on garments during  
the ensuing year.

troops, has been developed by the or-  
dinance department of the army. It has  
a number of entirely new features  
which give it a striking appearance  
as well as increase its efficiency. The  
sabre will have a metal basket guard  
which entirely protects the hand and  
gives it the appearance of the swords  
carried by the buccaners; when the  
sword was the chief arm of the sol-  
dier. The scabbard will have a bell  
mouth with a projection on the end  
so that it can be used as a pole for a  
shelter tent. It is to be of wood cov-  
ered with duck, according to the  
method recommended by the cavalry  
equipment board.

**BIG ELECTRIC SIGN.**  
The largest single electric sign in  
the world, according to "Popular Me-  
chanics," depicts a baby's face that al-  
ternately smiles and sheds tears on  
the crowds that throng Broadway,  
Manhattan. The smile is some 12 feet  
wide when it reaches its fullest de-  
velopment and each individual tear is  
two feet long by 10 inches wide. The  
sign itself is 85 feet high by 106 feet  
wide and contains a total of 9,010  
square feet of space. The child's  
head is 40 feet high. The sign weighs  
80 tons and contains 4,050 electric  
lights.

A sermon is either based on a text  
or a pretext.
